Now you will briefly explore the Chimorel area. Next you will review the Set Goal and Resource Developer areas and you'll re-look at the Recycling, Business and Nonprofit areas.

Sub-goal: In depth look at the Chimorel Area

- Click [Chimorel](#). This is the yellow link on most pages. *Realize that you are looking at a site map for the Chimorel area. Most of the sections within this area has its own Menu or link section.*
- Click [Stories & Concepts](#). The menu covers Stories With a Lesson, Success Stories, Recycle Stories, Concepts and Committees In Action.
- Click [Your Story](#). We look forward to the time when your story is one of our success stories. Read. Think a little. *On this screen are Your Story, Your Success Journey, Mr Influence and more.*
- Click [Concepts](#) Click **040**. Skim. **Recognize** resources are limited. *We wait until you are ready. As we support you we will ask you to support others. You are entitled to the rewards you earn. You could raise \$4000 and receive a \$2000 scholarship. If you settle for welfare, you can loose the overwhelming abundance you could have. When large companies get a lot and give little back, there is less for those who are struggling. Learn to love someone who loves you back.*

- Click [Resources](#). Skim. **Recognize:** *Everything you want takes some resource. Develop an Action Plan to achieve your goal. Resources include money, time, energy and sources of strength outside your direct control. If you are not ready to pay the costs to raise big money, we can teach you alternative strategies. If you seek capital learn to analyze investments, because people who have money won't give it to you until you meet their expectations. A broker earns his/her money by executing transactions.*
- Read and scroll until you see [103 Nonprofit Side](#). **Recognize:** *When there is a cause there must be people willing to support the cause. Although donors are inspired by charitable motivations, a desire to help others and concerns about wrongs that need to be right, we encourage them to analyze their donation decision. We believe a significant part of the support for a nonprofit must come from the efforts of those who receive the benefits. There can be a nonprofit side to a for profit venture. Click close to Return.*
- Click [Basic Finances](#). **Recognize:** *A Resource Developer is not a financial planner. Financial planning must be an ongoing, long term process to be successful. Financial planning at Chimorel covers a very wide arena. You want to think about the questions we ask. One way to make sure there is money to pay for programs which support people is to first enable profit firms to make money, then ask these firms to hire people, make donations or pay for services which support the cause. You want to understand the meaning behind our three tips.*
- *At Chimorel the person who does a specific job gets the pay for doing that job.*
- *Hope is powerful. Learn to use the power of hope to make your life better.*
- Click [Training Module Overview](#) or this link. **Recognize:** *That **735 Plan, I Got a Job** and **New Recycling Story** can each take from 30 minutes to two hours to complete. When you have time, you are encouraged to explore these areas.*
- Click [Learn Menu](#). *If you were interested in becoming a Board Member (Prospective, Voting, Advisory, Finance) you would want to spend some time exploring these links.*
- Click the [Do Menu](#). *You don't have to be a board member to make commitments to help Chimorel. Click a few links if you have time.*
- Click [Commitments](#). *When you are ready, you will focus on Time, People, Programs & Memberships, Cash or Building Chimorel?*

- Click **Chimorel**. If you want, explore the Annual Report, Financial Statement and Compliance Sections. **Recognize:** *We make a significant effort to comply with all the agencies who monitor our activities. This is ongoing. We are small and resources are limited. It takes time, energy and paying attention to remain in compliance.* This section has not yet been transferred.
- If you have time feel free to re-visit the [Membership](#) and [Programs](#) sections. *Click either link.*
- Explore [Climate Change](#). **Healthcare** has not yet been transferred. *Climate Change is both an existential threat and a future income opportunity.*
- We covered a lot in this short trip through the Chimorel Site map. You are welcome to come back and explore each section in greater depth.

- Click [How Much Did I Learn?](#) Click [How Much Can I Earn?](#) Note the difference. **Recognize** there is a significant amount training available and much of the training is currently greyed out. *This means these trainings are conducted by Warren with a combination of online and offline methods.*
- Click [I'll Volunteer 25 Hours](#). When you are ready make the commitment to become a Resource Developer. *An entire world of opportunities will open for you.*

Sub-goal: Brief look at the Recycling Section

- Click [Recycling](#). Look at the storm clouds. *Click the picture to brighten the future and create jobs. These transform sliders are a metaphor for your life and for what we can accomplish together. This slider does not yet work.*

- *If you have time, explore **Creating Jobs**, the **New Recycling Story**, **Recycle Anything** and other links. Realize how many jobs recycling computers can create. There is a lot in the New Recycle story that is worthwhile. Yes you can recycle just about anything, but in many cases the resources have not been adequately developed.*
- Click [Recycle Computers](#). **Recognize** there are significant risks to disposing of computers improperly. You can donate electronic equipment to Chimorel. Disposing of electronic equipment is probably not entirely free. *At Chimorel your cost of disposing of electronic equipment can be significantly reduced and sometimes we might share part of the remarketed value. Donating to Chimorel can have many benefits – cost reduction, safe disposal, tax deduction and a Recommendation Privilege for members.*

- Click [Business Overview](#). This gives you a quick overview of a Tentative Goal, Riches Wealth & More and many other topics you will want to consider as you develop your business. It enables you to determine if you need to do a business plan. Most of the brief explanations lead to a more comprehensive discussion.
- [Tentative Goal](#). Skim. Click Continue. *Recognize that by making small changes in quantity, price, variable costs and fixed costs you can achieve a significant enhancement to your profitability. If you have time to follow your nose, you will learn about increasing sales, fixed*

expenses and much more.

- Click **Accounting**. When this section is fully transferred, you will discover a brief accounting course with 20+ screens.
- Click **Expense Control**. In this section you will discover our top ten cost cutters.
- Click **Riches vs Wealth**. If you have time skim this entire section. If not click the Micro and Macro links and scroll reading a little as you go. Here is a brief overview:

From a Micro-economic viewpoint Understand: *Riches are transitory. Wealth is enduring and can be passed as character to your children's children. You are expected to be a good steward and responsible. You have an opportunity to draw out and enable others to fulfill their destiny. As you develop your employees into proprietors, expect a lot. As a servant leader assist those you work with to discover their calling, gradually giving them increased responsibility and authority. "Truly, truly, I say to you, unless a grain of wheat falls into the earth and dies, it remains by itself alone; but if it dies, it bears much fruit."*

As you transition to a Macro Perspective: *Suffer neither the oppression of the tyrant, nor the tyranny of the lazy and indolent. Say "no", be hungry, now let me help you find your destiny, let me teach you skills, be responsible for this small thing and we will give you more responsibility, then we teach you to fish for a lifetime. Soon they will be teaching their children's children to have wealth. "Let him who steals steal no longer, but rather let him labor." Ideas and actions have economic consequences.*

From a Macro Perspective: *The anti-work ethic is more than laziness. The landed gentry notion of hidalgo is passed from generation to generation and is prevalent in El Paso, Mexico. Next door in Juarez, Mexico, there is a strong work ethic. You can stand looking out across the Rio Grande, which flows between the two cities and see the difference. **Now it is Your Turn!***

- As you have discovered, it is what you do that makes the difference. What will you do today, tomorrow and in the near future?
- In the future you will be able to click the **Human Resources, Business Incubation** and **Create a Social Enterprise** links.

Sub-goal: Explore the Cooperative Effort Program

Here are [21 Other Area Diamonds](#)

Sub-goal: Become a Chimorel Leader

Chimorel Leaders will function in two primary, but blended realms: caring and financial. To achieve our meaningful impact on 50,000 lives objective, we need competent planners, action leaders, coordinators and many other caring leaders. To achieve our \$10,000,000 capital campaign objective we need strong Financial Board members who will participate in raising funds and guide Authorized Fund Raisers and other financial leaders as they raise significant sums. Now let's blend the caring leader with the financial leader for two additional significant goals.

To acquire \$50,000,000 worth of real estate generating \$1,000,000 in cash flow each year, we will need to research and negotiate with investors, realtors, property owners, property managers, skilled contractors and other leaders, who not only support us as we acquire property, but also support clients and trainees as they seek to develop their careers.

An electrician, for example, can teach his skills to trainees while wiring the property we acquire. A realtor or property manager can involve our trainees in the property search or in the property management.

To achieve our \$3.9 million 2022 Chimorel Sanctuary budget we need motivated members, skilled event planners, resource developers, managers, planners, coordinators, Create a Career managers and many other leaders.

A motivated member may listen as someone discusses their debt problem, but to solve the problem she must also face her friend with the hard financial facts, then put on her supportive hat and show her friend how to increase his income, as well as, reduce his expenses.

We need leaders who invite people to Change Your Life meetings, our free Success Journey and to enroll in our memberships and programs.

We need Neighborhood Recycling Coordinators to organize our Active Recycling program and leaders who inspire active recyclers to drop off electronic waste, eBay items, aluminum cans, other recyclable materials, as well as, assist us with processing recycled materials.

We need event planners who find event sponsors, nonprofit affiliates and Special Project members. We need Work Experience Coordinators to find temp to hire employers, as well as, identify sources for and train motivated trainees. We need 5000 leaders from all walks of life who care enough to make things happen.

**Something is about to happen.
You are about to make a decision.**

**What you decide in the next few minutes could have
a profound impact on your life, on the lives of others and
on our world.**

Have you completed your Assignments?

**One decision you want to make is to ask for
Chapter 7 100+ Income Opportunities**

What is Your Why?

Chimorel Action Plan: Decision Time

That's right, it is decision time. Did you notice we are back at the beginning? Remember when we invited you to begin a Success Journey and you clicked the picture above. You could visit again, for old time's sake.

Just a few short weeks ago (*probably less because you took the expedited journey, right?*) we promised you 100+ diamond, gem and gold nugget dynamic strategies. We told you we'd share income opportunities. We suggested that together, we might even be able to tackle some big problems like world hunger, world peace and global warming.

You have come a long way since then. If you have clicked on only half the links available to you, you have learned a lot. You are to be congratulated!!! It takes a special kind of person to work through all we have presented to you in the last approximate 138 pages. One to go. It is true. Leaders are readers.

Did you add our [Success Journey](#) link to your favorites? Do it now. Did you invite at least ten people to take their own success journey? Did you uncover at least one opportunity that grabbed you? Did you become a member yet? Are you ready to step up and become a Chimorel Leader? We need 5000+ Leaders to enable us to achieve our having a meaningful impact on 50,000 people goal. If you truly are the person we just congratulated, we will continue on your success journey together, support a lot of people and organizations and make the world a little better.

If you haven't **become a member** yet, you may want to review those parts of our Success Journey which can answer your questions. Your reward for being willing to stay in touch was an incredible wealth of opportunities. When you do something about these opportunities, our success journey (*yours and ours*) will continue.

As an Action Planning member, you will receive our ebook *Create a Chimorel Project*. This ebook opens the door to many more opportunities, brings you face to face with two powerful Sources of Strength, and begins to explore the reality of solving world hunger, world peace and global warming.

Your Sixth Assignment

Assignment six is about Leadership. Scroll up to page 13 and reread the sub-goal on leadership. By now you should be well aware of the [Complete Assignments](#) form.

The decision you are about to make is to become a Chimorel Leader. Lessons 4-6 have prepared you to step into a leadership role with Chimorel. Yes, they gave you a template to create your own Action Plan, but more importantly you learned how to support others. That is what a Chimorel Leader does. You support others.

As you support others, these people will ask you “What did you do?” You will tell them how the Success Journey opened doors for you. You may expound on your progress toward achieving your Special Project. You will go back and review something you learned through the Success Journey that can support them, then you will open that door for them.

Our decision is a little subtle, you don't click something then decide. But when you complete your assignments, Lesson Six will open the door to stepping into two to five Leadership positions. And our journey together will continue.

You will tell us what you want to do and together we will make it happen.

Thank You !!!
